Good Evening,

Have a question/response regarding alternate for Auto. Sliding Entry Doors for Sayers revised tender (220209 - #2):

Question: I would like to provide you a quote for the qty 2, auto door sliders, on this 'Sayers Foods, Apsley' project

but the drawing specify the 'Horton' Proslide series 2021 as the approved model.

We are a DormaKaba supplier/installer and our ESA200 Auto door slider meets the same specifications as the 'Horton' except we provide a 3yr warranty on our drive unit and the other only 2yr

Can you please forward the attached data link (see below) to the Architect for review of our Dorma ESA200 slider.

We would like to be included as an alternate on this project.

Answer:

- DormaKaba, ESA200 Auto door slider IS acceptable alternate for Horton Automatics 'Proslide Series 2021';
- Sidelights for both D001 & D002 can be fixed for either Horton or DormaKaba models;
