Subject	Bulk Material Storage Blocks

Enquiry

Please provide specifications for Bulk Material Storage precast blocks. And or supplier of these blocks. We have been able to source 2' W x 2' H x 4' L and 2' x 2' x 2' stackable concrete blocks. Would these be acceptable? By scale, the blocks shown on the elevation are 2'W x 2'H x 3'-6"L. Which we were not able to find.

Response Details

Response Status	Completed
Response Date	16-Dec-2024 at 04:05:11 PM

Response

Bulk material storage precast blocks shall be precast concrete blocks with shear keys measuring 1.22mx0.61mx0.61m (LxWxH). Cap blocks to be used for the top course. These blocks are available from numerous suppliers throughout Ontario.

Enquiry Details

Enquiry Date	05-Dec-2024 at 04:51:50 PM
Type	Contract Drawing
Subject	Roof, Accessories and Wall types

Enquiry

On roofing plan 59, the cross section 30/70 shown on Roof top unit (opening)- MUA-1 - does not appear to be correct. Please advise.

Do AHU and MUA come with factory made curbs or we have to include for wood curbs for these roof top units? please provide details if they are not prefabricated mechanical curbs.

Is there any requirements for grabs bars, shower curtain, soap dispensers and other accessories in the shower in room 105? All accessories are marked in this room except for the ones in the shower. Please confirm.

On drawing 72, some walls are marked as WT9. We failed to find these walls on wall schedule, please advise.

Response Details

Response Status	Completed
Response Date	16-Dec-2024 at 04:10:20 PM

Response

Section 30 on sheet 70 shows the details for the roof access ladder. MUA-1 is not shown in this section for clarity

See detail on Sheet 59 For Roof Openings. This detail calls for prefabricated curbs.

See Plumbing Fixture Schedule on Sheet 91 for accessory requirements in the shower.

See addendum 2 for wall type updates.

Enquiry Date	12-Dec-2024 at 09:22:50 AM
Type	Contract Drawing
Subject	Sheets 14 to 17

Enquiry

Sheets 14 – 17 of Contract Drawings Book 1 of 2 shows the excavation to be straight down as well as the payment line. This will depend on the depth of excavation and if straight cut is possible. Can the Owner provide details on the excavation depth?

Response Details

Response Status	Completed
Response Date	16-Dec-2024 at 05:08:53 PM

Response

Please review OPSS PROV 902 Earth Excavation for Structure for details on Construction and Measurement specifics related to the typical sections as shown on sheets 14-17 and specifically to Notes 5 & 6. MTO specs call for excavation and backfill to be to neat lines.

Subject	Masonry Rebar

Enquiry

Please refer to attached part drawing sheet 40. Can you please advise if the rebar lengths will be as shown on the drawing or is there a minimum length that would be acceptable. The length of the rebar, particularly the one high lighted on the drawing could have a significant affect on labour costs so it is important for us to know the exact rebar lengths for these walls.

Attachment(s)

Response Details

Response Status	Completed
Response Date	10-Jan-2025 at 02:15:31 PM

Response

There is no minimum length of rebar specified. The length of installed steel reinforcement segments is determined by the contractor. For staged installation of reinforcement, Class B lap splices shall be provided.

Enquiry Details

Enquiry Date	07-Jan-2025 at 02:05:45 PM
Type	Special Conditions
Subject	Epoxy Flooring

Enquiry

Referring to Sheet 52 Room Schedule: We would like to propose alternate to the specified epoxy floor coating: Armorpoxy FB-801. This product is not available in Canada. We hereby propose another alternate of Sherwin/Williams Armorseal 1000 HS coating. Can the Ministry confirm if this product is accepted to be used.
